PROFESSIONAL SUMMARY

Pursuing master's on the prestigious Brown School Global Health Scholar Award at Washington University in St. Louis, USA. Headed metabolomics study on breast cancer and enrolled participants in the DUET Study at Washington University School of Medicine. Analyzing the CDC EHDI large dataset using R studio to create parameters to compare states' performance. Graduated from India's top medical school with a Bachelor of Dental Surgery from Banaras Hindu University. Worked professionally under various leadership capacities as a medical officer at Tata Memorial Center during the COVID pandemic overseeing a ward with 60+ patients and in the Head and Neck Oncology Department of Tata Memorial Center, South Asia's largest cancer centre, serving 400,000 cases annually. As a public health officer headed a cancer screening program for a population of nearly 5 million in the remote village of Bihar. India's top 4 finalists for Inter-Institutional School of Diagnostic Innovation in Biodesign Fellowship.

ADDITIONAL SKILLS

- Educator and Professional motivator
- Data Analysis- **R, Python, Stata, SPSS**
- Data Visualization- **R, Tableau, Excel**
- Healthcare Management
- Basic life support (BLS)
- Volunteer and community mobilizer
- Certification & interdepartmental coordinator
- Innovator & entrepreneur
- Excellent communication
- Data-driven leadership
- Online course on Excel 2016: Cleaning Up Your Data
- Online Course on R Essential Training: Wrangling and Visualizing Data, January 2023
- completed 2-day E-Workshop on data analysis with Python.
- completed 2 credit-hour master course in Oral Cancer Management 2021
- Accomplished 3 credit-hour short course in Clinical Research Methodology.

PROFESSIONAL EXPERIENCES

Washington University in St. Louis, MO, USA March, 2023 –Present
Graduate Research Assistant (Center for Public Health System Sciences)

- I am working on the CDC's EHDI state data from 2007 to 2020 for 50 states and the District of Columbia to analyze and visualize the state's performance by creating a set of new parameters out of the data variables. All the analysis and visualization is done using R.
- All these analysis and visualization is being made available for the general public on a website hosted by Washington University in St. Louis.

Washington University School of Medicine, MO, USA May, 2023 – August, 2023
Graduate Student, Toriola Lab, Department of Surgery, Public Health

- I led a study to investigate the association of amino acids, carbohydrates, energy, and peptides on mammographic breast density.
- This research was the first of its kind to pave the way for breast cancer prevention strategies from dietary metabolites.
- I was also involved in the DUET Clinical study to recruit and consent participants.

Washington University in St. Louis, MO, USA September 22, 2022– March, 2023
Engagement Ambassador

- I engage with Washington University alumni, parents, and friend donors of WashU and learn a different perspective of people across the rainbow specialty.
- I execute my management and sales skills to build rapport with them and work towards fundraising for the university with their generous donation.

Tata Memorial Centre (HBCH&RC), Muzaffarpur, India.

February 2022–June 2022

District Technical Officer

- Worked as Physician Assistant to Medical Oncologist for taking detailed initial history, consents for tests and chemo medication, Transcribing protocol on MOIS, counseling about side effects and dosing, making online prescriptions after consultant approval, grading chemo toxicity as well as medical management of palliative patients.
- Responsible for scheduling patients to the physician, follow-up cases, helping the physician in his administrative works, logistic management, inter/intra department liaising, Pre-certification for government aid, Documentation & verification for an Insurance claim.
- Lead the public cancer screening & awareness program in 4,801,062 population. Conducted large-scale cancer screening and awareness campaigns to detect early-stage cancer from the community for definitive intervention and treatment at cancer research centers.

Tata Memorial Centre (MPMMCC & HBCH), Varanasi, India.

April 2021–October 2021

Medical Officer

- Served in rotation COVID intensive care unit and wards for clinical management of patients. Consultant ward rounds and bedside teaching enhanced the clinical as well as medical management of patients.
- Worked on clinical research to interview participants and place phone calls every Saturday, recording treatment outcomes, updating medical records, data entry, scheduling upcoming visits, and analyzing the large data set of hospitals using statistical software for research & literature review.
- Worked in the Head and Neck oncology department and learned holistic cancer care while serving in OPD, wards, and operation theatre. Evaluating new and follow-up oral cancer cases in OPD, performed minor day care surgical procedures biopsy of the lesion, wound dressing, Ryles tube insertion, cleaning and dressing of wounds/suture sites. In the operation theatre, assisted surgeries as a secondary or tertiary surgeon. Maintaining surgical logs, verifying consumable instruments and medications in the operation theatre, and communicating with surgeons and consultants.

Max7 Hospital, Purnia, India.

December 2020–March 2021

Resident Internship

- Learned the multispecialty corporate hospital work culture, disease diagnosis, and critical care management. Under the consultant, supervision learned OPD management and disease treatment approach.
- Conducted a Public outreach program on tobacco cessation. Research and seminar was part of everyday clinical activity. Interdepartmental liaising and interpersonal communication enhanced working in corporate culture.

Faculty of Dental Sciences & Sir Sunderlal Hospital (IMS) Banaras Hindu University, Varanasi, India

December 2019–December 2020

One-Year Rotary Internship

- In rotation served all nine streams of dentistry in addition to the emergency department at medical college, university student health center, and employee health center. This experience boosted my confidence and taught me minute details while talking to and treating a patient.
- As a fresh healthcare professional graduate working under a senior consultant brought a vision and approach to problem-solving. Learned basic life-saving emergency management, community outreach programs related to cancer screening, and tobacco cessation awareness was part of the work and grading. Got comprehensive life immersion experience.
